

1.

**Why are computer networks needed?**

- A. To reduce software installation**
- B. To eliminate hardware completely**
- C. To share resources and information**
- D. To increase electricity consumption**

**Answer: C**

2.

**Which of the following is NOT a benefit of computer networks?**

- A. Data sharing**
- B. Hardware sharing**
- C. Reduced communication**
- D. Centralized data management**

**Answer: C**

3.

**Which one of the following is the primary purpose of a computer network?**

- A. Formatting hard disks**
- B. Data communication**
- C. Editing photos**
- D. Compressing files**

**Answer: B**

4.

**Which of the following is a guided transmission medium?**

- A. Radio waves**
- B. Microwaves**
- C. Fiber optic cable**
- D. Infrared**

**Answer: C**

5.

**Which type of multiplexing assigns different time slots to each signal?**

- A. FDM**
- B. TDM**
- C. WDM**
- D. CDMA**

**Answer: B**

6.

**In Frequency Division Multiplexing (FDM), each signal is assigned:**

- A. A time slot**
- B. A different frequency band**
- C. A separate wire**
- D. A unique packet header**

**Answer: B**

7.

**Multiplexing improves:**

- A. Data encryption**
- B. Bandwidth utilization**
- C. Error rate**
- D. Protocol speed**

**Answer: B**
