

Object Oriented Concepts Using C++

1. 10 questions
2. cdac course

0 1 => add x y
 MUL x y

10000

Abstraction And Encapsulation

customer		Company =>5000
Ram Processor		ram =4 GB
Storage		Storage=32 GB
camera		processor=>mediatek
Battery Backup		Battery =5000mAh
screen size		Camera=chinamade
external behaviour of mobile		screen size
hiding internal implementation details		plastic /glass body
showing essential features		they want to encapsulates all these hardware into plastic/glass body
Abstraction		encapsulation
		it works on internal implementation

ATM

Bank

Withdraw()

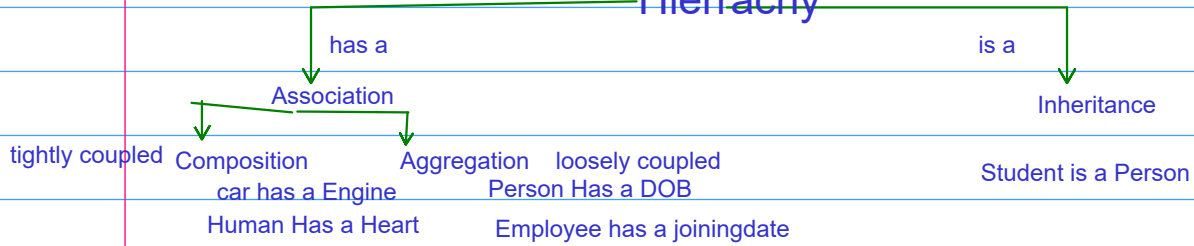

```
Withdraw(){
  withdraw
}
```

=>encapsuation

Deposit abstraction

```
Deposit()
{
}
}
```

Hierrachy

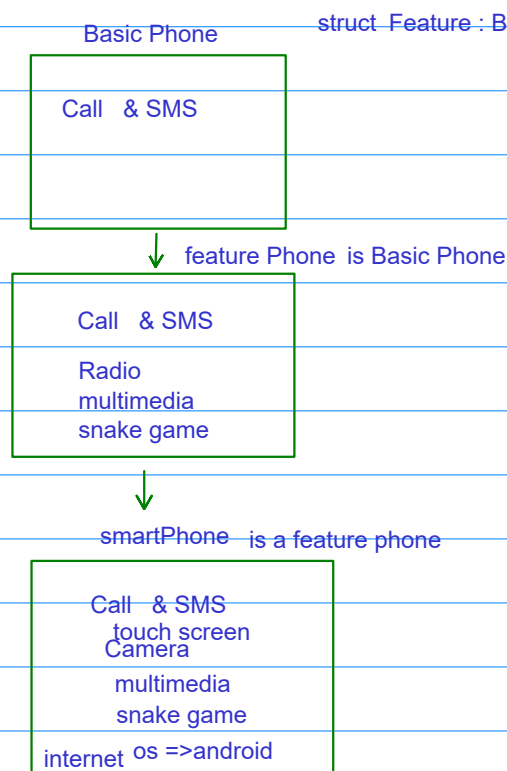

```

struct car
{
    color
    price
    brand
    struct Engine e
}

struct ENgine{
    int cc;
    int fuel
}
    
```

Inheritance

struct Feature : Basic

```

struct Feature {
    Basic
}
    
```

Champaklall Gada

10 acr land

jetha Gada

10 acr land
electronic shop
2 bhk flat

Tapu Gada

10 acr land
electronic shop
2 bhk flat
3 bhk flat

Polymorphism

Phone

torch
calender
notepad
calculator
alarm
GPS
Camera
Radio

Concurrency

```

int main()
{
    add();
    sub();
    mul();
}
    
```

Persistance

file handling
database
