

signed char ch=127;

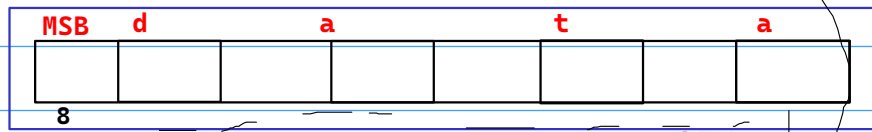

ch= 128;

ch=129;

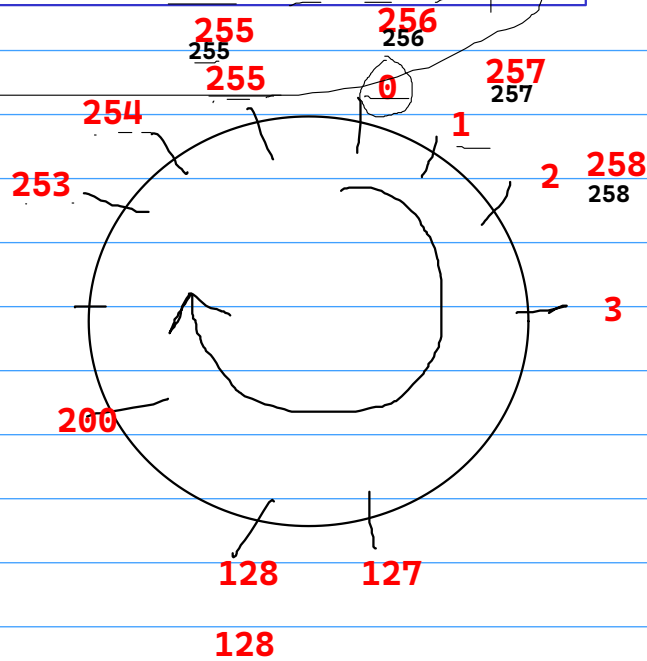

ch=130;

Unsigned char

```
unsigned char ch=255;  
ch=256; //0  
ch=257; //1  
ch=258; //2
```

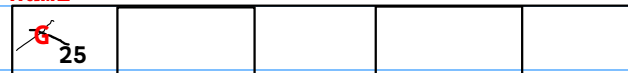

scanf()

stack section

4 byte

num1

100

&num1
address of num1

```
int num1;
```

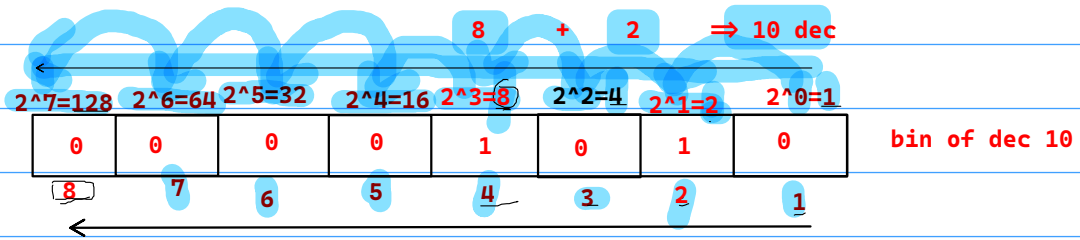

```
//scanf("format specifier", addressOfVariable);
```

```
scanf("%d", &num1); //25  
// 100
```

```
printf("%d", num1); //25
```

Binary number system

10 dec $\Rightarrow$ 0000 1010 binary (1 or 0) base 2

13 dec $\Rightarrow$ 0000 1101 bin

8 + 4 + 1 $\Rightarrow$ 13 dec
